

Corporate team entries are a separate category within the race.

- 1) Corporate teams should be comprised of at least 3 members from the same firm, and should have the official support of the company. You should use your corporate email address (for each participant) for either the primary or secondary email address when registering.
- 2) Corporate team names must reflect the firm's name that they are representing. For example: *The Barclays Hikers, Prudential Wonderers* etc.
- 3) Please help us and adhere to the spirit of a corporate team registration. Any teams registering that do not fulfil the above requirement, will have their registrations cancelled with any costs borne by the participant. Thank you.
